Meeting Memo (English)

Ali: Briefly welcomes the new participants. States where we stand now, we do have scripts for the introductory level, and we have designs for characters.

Ali: Presented the new tasks, making audio and background designs – try to merge both introductory scripts into one – transforming the characters designs into 2D characters on machine – transforming the script into RenPy Programming language.

Lucas: Is ready and waiting to be assigned to a task.

Majeed: Is ready and waiting to be assigned to a task.

Dan: Going to take charge of the Ren'Py integration.

Niko: Continues the sourcing of audio and backgrounds assets.
