

AIMlearning LearningFinnishAdventure Meeting Notes

Paikka / Place: Online via Discord

Ajankohta / Date: 22.08.2024 -- 13:00

Ohjaajat / Instructors:

Osallistujat / Participants: Ali Gadraoui - Majeed Babatunde - Jiri Hakola - Satu Helanen

Meeting Memo (English)

Ali: Briefly welcomes the participants. States where we stand now, we do have scripts for the introductory level, and we have designs for characters.

Ali: Presented the new tasks, making audio and background designs – try to merge both introductory scripts into one – transforming the characters designs into 2D characters on machine – transforming the script into RenPy Programming language.

Satu: Idea for a final boss of the game (more fun and fantasy), boss fight against Väinämöinen from Kalevala. Where our protagonist needs to fight him with poems and rhymes.

Jiri: Agrees with the process and idea of implementing this boss fight.

Jiri: We need to check on copyrights for it and see how to manage it.

**Co-funded by
the European Union**

Other affairs (English)

- Satu last day with the Team, special thanks to her for the designs and script.
- Must check on the copyrights for the designs (images and audios)
- Majeed was driving so we did not ask him direct question for safety reasons, but he was still with us throughout the meeting.
